

New Flail and Verge Mowers to the UK

Brevi's range of Flail and Off-set verge Mowers are mechanical PTO-driven implements designed for chopping residues, shredding cereal plant stalks and crop residues in the open field, maintaining roadside verges and ditches and for maintaining green areas and fallow land.

Mowers

- 15 – 130hp tractor suitability
- working widths of up to 4m
- Suitable for small and compact tractors

Off Set Verge Mowers

- Models range from 15 – 120 hp
- working width of up to 2.5m
- rear floating 3 point hitch CAT II
- side and tilt hydraulic shift working positions
