

NEW PRODUCT RANGE

Introducing the Flexible Topper! Suitable for all pastures and grass, any kind of stubble and areas of heavy undergrowth. The Flexi Toppa provides a mulch with an even spread across the machine, doing the same job as a flail mower but at a fraction of the cost and horsepower requirement.

Standard Features

- 4.3m and 6m models available
- Three point linkage for front or rear mounting in all cutting widths
- Overlapping blades
- Mulching blades over cutting blades to give fine cut mulch
- Spreads chopped residue evenly over cutting width
- 1000rpm PTO for tractors from 65hp
- All cutting widths fit within 2.89m transport width
- Low horsepower requirement
- Mulching plates
- Hardened swinging blades to draw up material to be chopped
- Two, three, four or six cutting and mulching blade options
