

'Magic' Finishing Mowers

For parks, gardens, sports grounds, golf courses

Robust, simple construction – low purchase and service costs and high resistance to damage by stones and other debris.

- Front and rear castor wheels, floating linkage and anti-scalp rollers – close following of ground contours and minimum turf damage.
- 1.2, 1.5 and 1.8m cut; left hand side (MRN) or rear (MRN/P) discharge.
- Headstock and gearbox reversible for tractor front or rear linkage.

Heavy duty models for extensive turf maintenance.

- Rugged box-section headstock, deck support and castor wheel arms – reliability and long life at an affordable price.
- Reinforced wheel forks with wide, pneumatic tyres and extra anti-scalp rollers – more accurate cutting and minimal turf damage.

Easy height adjustment (0-112.5mm)

To avoid collecting and clearing grass away, SGG offers a simple, effective 'mulching' kit for rear discharge 'Magic' MRN/P mowers.

With 'bands' to enclose the rotors, fixed rear panel and extra blades, cut grass is retained and chopped until it is fine enough to drop down among the uncut stems.

Extra rear anti-scalp rollers are included.

First class finish

Magic 'HD' – long life at an affordable price

Mulching kit – no cuttings to remove
